TOSHIBA

QUIET ALTERNATIVE

Seiya NEW

Highlights

BASIC Line compact inverter
A++ in cooling & heating mode
Infrared remote control included – WiFi ready

The BASIC Line model SEIYA already offers all the efficiency advantages of inverter technology combined with a rotary compressor. Set consists of an outdoor and indoor unit, using refrigerant R32.

Attractive & economical

- Excellent energy efficiency (A++)
- DC hybrid inverter technology
- Rotary compressor in sizes 07 to 18
- Twin-rotary compressor in size 24
- Exceptionally high efficiency in part load range
- Automatic restart after power blackout
- Cooling-only & heating-only settings
- Defrosting on demand

Resource-friendly & quiet

- Minimal electricity consumption due to inverter control
- ECO mode
- Air used as energy source in heating operation
- Compact outdoor and indoor units
- SILENT whisper mode

Easy operation (set)

- Infrared remote control included
- WiFi ready
- Optional app control via smartphone or tablet
- 24 hour ON/OFF timer
- Automatic mode
- PRESET Memory function
- Hi Power
- QUIET function for indoor unit
- SILENT function for outdoor unit, 2-stage
- Louver swing & fix
- 8°C frost protection function

WiFi special features (set)

- All indoor units & groups on/off control
- All indoor units & groups weekly timer
- All indoor units & groups setting
- Indoor temperature display
- Outdoor temperature display
- Power select
- Child lock
- ECO mode
- Fireplace mode
- Hi Power mode
- Energy Monitoring

HIGHER quality in LIFE

In order to make it easier for you to select the optimal product, you can find the description of the special TOSHIBA product functions for your model here:

Energy Label A++: Energy efficiency class A++ guarantees a very low power consumption.

Rotary compressor: Reliability and high efficiency.

Auto diagnostic: Check of system for flawless operation.

Hybrid inverter control: Smooth capacity regulation.

R32: Used refrigerant: R32.

Automatic Restart: After a power blackout.
