TOSHIBA

Simultaneously warm & cold
SHRMe

→ **Highlights**

Highest possible efficiency due to heat recovery
Combinations of up to 151 kW of cooling capacity and heating capacity
Two twin-rotary compressors per unit

VRF 3-pipe outdoor unit for simultaneous cooling and heating with a wide performance spectrum. For combination with VRF indoor units, valve kits (exhaust air control) and VN heat exchangers.

→ **Performance**

‒ ESEER values up to 8.17
‒ Excellent energy and cost efficiency
‒ Suitable for monovalent heating operation

→ **Flexibility**

‒ Max. pipe lengths up to 1000 m (starting from 34 PS)
‒ Max. height differences up to 90 m
‒ Up to 64 indoor units can be connected (starting from 30 PS)
‒ Capacities up to 20 PS available with only one outdoor unit module
‒ Flexible control options for all applications
‒ Optimal ratio of unit capacity to installation surface
‒ Quiet operation protects people and the environment
‒ System diversity to 135%
‒ Simple system design with SelectionTool software

→ **Technical details**

‒ Next generation of perfected A3 compressors
‒ Two inverter-controlled compressors per unit module
‒ At 64 cc, enlarged compressor compression chamber (starting from 14 PS)
‒ Shared vane technology with a carbon coating
‒ Two twin-rotary compressors in all units
‒ Compressor backup
‒ Outdoor unit modulation for maximum dependability and durability
‒ Shared heat exchangers
‒ Advanced fan design enables maximum capacity with minimum noise generation and current consumption
‒ Continuous heating for short defrost cycles without any comfort losses during heating operation
‒ Intelligent refrigerant management ensures an optimal supply to all indoor units, regardless of their position in the building
‒ Wireless wave tool function simplifies commissioning, servicing, and system monitoring with Android smartphones

HIGHER quality in LIFE

TOSHIBA

SHRMe

Technical data			MMY-AP5016FT8P-E
Capacity code	HP		50
Cooling capacity	kW	❄	140,80
Power consumption (min./nom./max.)	kW	❄	43,80
Energy efficiency EER	W/W	❄	3,21
Energy efficiency SEER		❄	5,83

The measuring conditions for this product can be found at https://www.toshiba-aircondition.com/en/measuring-conditions.html

In order to make it easier for you to select the optimal product, you can find the description of the special TOSHIBA product functions for your model here:

Hybrid inverter control: Smooth capacity regulation.

Twin rotary compressor: Long-lasting, smoothly running and highest efficiency.

R410A: Used refrigerant: R410A.
